

# GIVE A PENNY, TAKE A PENNY

When you're at the counter of the convenience store you have the option to put a penny in the change tray because you're feeling like you've got a bit to spare, and sometimes you need that extra spare penny 'cause you're a bit short at the moment. These personal financial cycles come and go and are often influenced by circumstances beyond our control.

The arts shouldn't be a luxury! The arts are for everyone. So we have a system here at Rocket Improv where you can GIVE A PENNY (contribute to our pay-what-you-can-program) or TAKE A PENNY (use what you need from our reserve of funds). When we spread the wealth, we lift each other up.

So if improv class (or camp or Dungeons & Dragons) for your young person sounds really cool but out of financial reach at the moment, we have a simple, confidential, no-questions-asked way to access those extra pennies.

Here's how it works...

Choose the coupon code that works for your situation.

For 10% off use code: 10percentoff

For 25% off use code: 25percentoff

For 50% off use code: 50percentoff

Then when you register, enter the code where it asks for "Promo Code." And the discount will be automatically applied to the overall amount. It's just that simple!

*A message from Director, Lulu French...*

*"Like most families, we've experienced lean times, so I am beyond grateful for the financial assistance our family has received when the costs for an enrichment activity were too great. This is partly why I am passionate about making Rocket Improv accessible to everyone regardless of one's means, and as a way of thanking the universe for its generosity.*

*If you feel one of our coupon codes will enable your young person to participate in our improv program, I very much hope you will use it! We'd love to have them. Peace!"*
